About me

Passionate in Software

Experienced Senior Software Engineer with a demonstrated history of working in the computer software industry.
My area of interest is Software Architecture.
Strong engineering professional with a Master of Science (MSc)

Frontend developer

Javascript evangelist, architect.
I am a passionate and self-motivated. I love to share my knowledge and discuss all the software aspect.

I am always up to date.

As a developer I am experienced in all aspects of designing and developing web based projects.

Bringing ideas to life

Skills & Abilities

JAVASCRIPT

- ES2015/ES2016/ES2017 /ES2018

- JSON, AJAX

- Libraries: Lodash, Underscore, jQuery, sinon, highcharts, morris, c3, alt.js, redux, firebase, redux-observables, rxjs

- Frameworks: ReactJS, AngularJS, Angular2, Aurelia.io, Knockout

- Test frameworks (mocha, karma, protractor, jest)

CSS3, HTML5

- CSS frameworks: Bootstrap, Material Design,
- Saas (Scss)

NOSQL DATABASES

- Experience with MongoDB, Firebase, Couch DB,

NODEJS

- Express
- Koa
- Koa2

SQL	
- Oracle PL/SQL - Microsoft SQL Server TSQL · MySQL, - SQLite	
VERSION CONTROL	**TOOLS**
- GIT - TFS	- Dev Tools - Editors / IDE: Atom, Sublime Text, Visual Studio, VS Code, - Task runner: automation tools: Gulp, Grunt, npm scripts - Project/Task management: TFS, Jira, Trello, - Webpack

Education

MASTER OF SCIENCE | 2015-06-27 | CRACOW UNIVERSITY OF TECHNOLOGY | COMPUTER SCIENCE

- Degree 5.0
- Graduated with distinction

ENGINEERING DEGREE | 2014-02-10 | CRACOW UNIVERSITY OF TECHNOLOGY | COMPUTER SCIENCE

- Degree 5.0
- Graduated with distinction
- Related coursework: KNI Scientific Circle Cracow University of Technology Computer *Science, 1st place at the University Session of the Scientific Circles*

Experience

SENIOR FRONTEND DEVELOPER | CODETE GmbH | 2016-12-14

- Bringing ideas to frontend word
- Frontend Team Lead
- Projects: Gelato Optimalprint Repurchase Dashboard, University4Industry

SENIOR FRONTEND DEVELOPER | FIRST-UTLITY | 2016-11-01 - 2016-12-14

- Performing audit
- Helps moving forward. Provides best practises and solution for frontend
- Projects: Maxcare

SENIOR FRONTEND DEVELOPER | INTIVE (SMT SOFTWARE SERVICES) | 2016-08-01 - 2016-10-31

- Technical verifications
- Project estimations
- Buildings web applications with various technologies

- Projects: Tandem Bank

CONSULTANT (FRONTEND)| INFUSION DEVELOPMENT POLAND | 2015-07-01 - 2016-07-31

- Mainly focusing on web application. Roles included: software engineer, front end web developer, back-end developer. Designing and developing new and improving existing applications
- Projects: Budget Dashboard, Infusion Procurement Portal. Employee Management Portal

ASSOCIATE CONSULTANT | INFUSION DEVELOPMENT POLAND | 2014-08-01 – 2015-06-30

- Working with a client mainly focusing on web application. Designing and developing new applications
- Projects: ADP Expertise Locator, Shale Inland Sales Connect, Muppetshow

.NET DEVELOPER | FQS POLAND | 2014-01-01 – 2014-07-31

- Designing and developing application based on big data (xbrl)
- Projects: XBRL

.NET DEVELOPER | COMARCH | 2013-07-01 – 2013-12-31

- Developing web applications
- Projects: Comarch e-pracownik, Comarch Asysta

BUSINESS INTELLIGENCE DEVELOOPER | ASSECO POLAND | 2012-08-01 – 2013-02-01

- Working mainly with big data.
- Designing, analyzing and developing databases, aggregating and analyzing data coming from various data sources

Certificates

- MCSD: Web Applications
- OCA Oracle Database 11g Administration 1Z0-052
- Introduction to Oracle9i: SQL 1Z0-007

Projects

University4Industry
- Senior Frontend Developer
- Technology stack: ReactJS, redux, Material-ui, sass(scss), jest, webpack, nock, html5

Gelato Optimalprint Repurchase Dashboard
- Frontend team lead

- Technology stack: ReactJS, redux, sass(scss), react-bootstrap, webpack, mocha, jsdom, chai, nock, html5, PHP

MAXCARE
- Responsibility: code review. Give idea how to improve and maintain big scale application
- Technology stack: ReactJS, graphql, mocha, express, html5

TANDEM BANK
- Bank application
- Responsibility: Frontend
- Technology stack: Javascript, Sass(Scss), HTML5, Angular, Typescript, karma, ASP .NET WebApi, webpack

EMPLOYEE MANAGEMENT PORTAL
- Application that manage Employee in companies
- I was responsible for frontend
- Technology stack: ReactJS, Javascript, ASP .NET WebApi, HTML5, Sass (Scss), MS SQL Server, webpack

BUDGET DASHBOARD
- Application for managers. Application aggregates all spend, budgets and deliver to a user in a smart, elegant way. It includes powerful charts (d3) to provide better understanding of expenses in the company
- I was responsible entirely for a forntend
- Technology stack: Javascript, Aurelia.io, ASP .NET Web Api, F#, Saas, HTML5, MS SQL Server

INFUSION PROCUREMENT PORTAL
- Application that handles all procurement request in company. It also include all some visualization to give understanding of procurements in the company
- My responsibility was to create entire application
- Technology stack: ASP .NET WebApi, Javascript, AngularJS, TypeScript MS SQL Server, CSS3, html5, gulp

ADP - EXPERTISE LOCATOR
- Search engine that gives ability to deliver detailed information about People connected with employer. · Responsibility: front-end and back-end (NodeJS)
- Technology stack: JavaScript, AngularJS, NodeJS (with express), HTML5, SASS

SHALE INLAND - SALES CONNECT
- Project for Shale Inland - web application that allows sales operators work with the clients everywhere, in any time.
- Responsibility: frontend and backend
- Technology stack: Javascript (Type script), AngularJS, SaaS, CSS3, html5, ASP .NET WebAPI, HTML5, MS SQL Server, NHibernate, Azure

MUPPETSHOW
- Application that aggregate entire public information about employer
- Responsibility: frontend and backend
- Technology stack: Javascript, AngularJS, ASP .NET MVC, ASP .NET WebAPI, CSS3, HTML5, grunt

COMARCH E-PRACOWNIK
- Comarch ERP e-Pracownik is an application to manage working time with the module Payroll and HR Optima ERP Comarch Comarch ERP ERP XL and Comarch Altum.
- Technology stack: Javascript, Typescript, ASP .NET MVC, WCF, HTML5, CSS, MS SQL Server

COMARCH ASYSTA
- Web application for reporting notifications (bugtracker)
- Technology stack: ASP .NET Web Forms, Javascript, CSS, HTML5, WCF, MS SQL Server

Hobbies
- Cycling – amateur, enthusiast,
- Cooking – in my free time I like baking cakes,
- Skiing – amateur, enthusiast,
- Automotive – interesting in old fashioned and modern cars, IT, new technologies. I want always more

Languages
- Polish
- English

Others
- Driving license
